

PrimeHealth Clinic & Diagnostics

Company Background:

PrimeHealth Clinic and Diagnostics was established in 2018 in Australia to provide comprehensive healthcare services to people nationwide. It has established a chain of facilities operating countrywide staffed by more than 1,000 healthcare practitioners. Seeking to provide quality medically related services, Prime Health offers a wide range of diagnostic tests, medical consultations, and treatments. By using telehealth services and establishing partnerships with healthcare providers, PrimeHealth Clinic and Diagnostics, which has a turnover of \$800 million and an annual income of \$100 million, strives to connect the healthcare gap and ensure that quality healthcare is accessible to all persons needing patient care.

Company's Mission and Vision Statement:

Mission:

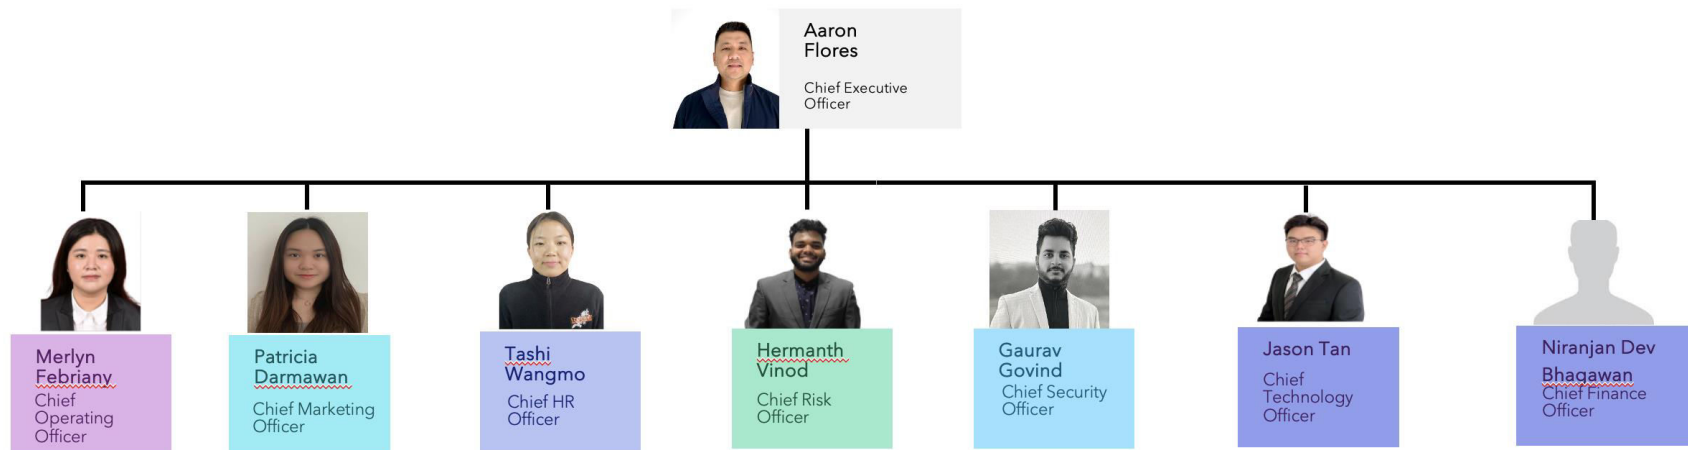

Prime Health Clinic and Diagnostics' mission is to ensure that healthcare services are available to and of a high standard for every patient. Our goal is to enhance the health of our patients by providing them with numerous tests, physician consultations, and careful treatment. Our mission is to make a difference in access to healthcare services, especially in the countryside, using telehealth and collaboration with local medical practitioners.

Vision:

We aspire to be the most trusted provider of leading patient care across Australia through excellence, innovation, and community outreach. We imagine a future where every patient can obtain low-priced, high-quality healthcare services.
